The accompanying Staff Development Review Form had also been updated to provide greater emphasis on constructive discussion, objective setting and employee development, with the previous numerical scoring system replaced by an overall performance assessment. Members,

9 Sevenoaks District Emerging Local Plan - Regulation 19 publication and representation period

Members received an update on the preparation of the Town Council's representations to the Sevenoaks District Local Plan Regulation 19 consultation, which closed on 17 September 2026.

It was reported that the Town Clerk, Cllrs Aldridge and Baker, and the Council's Planning Consultant, Alan Dyer, had been working on focused, evidence-based representations addressing the proposed Edenbridge site allocations, relevant policies and supporting evidence. Particular attention was being given to the soundness of the Plan, the disproportionate scale of development proposed for Edenbridge, highways capacity and the infrastructure required to support future growth.

Members noted that the Council's approach recognised the need for an adopted Local Plan and further growth, whilst seeking a more proportionate distribution of development, supported by appropriate infrastructure. The draft representation on Policy ST1 had been provided to Members as an example of this approach.

The Council's community engagement was also noted, including four public drop-in sessions, a household information leaflet and communications encouraging residents to submit their own representations.

10 Matters arising from the minutes for report and not elsewhere on the agenda

10.1 Rickards Hall - Timber floor maintenance and to ratify the expenditure of £1,400

Members were advised that maintenance works to the Rickards Hall timber floor had been completed during 26–29 August 2026, including sanding and staining previously repaired areas and applying a protective polyurethane coating.

Two quotations had been obtained, at £1,400 and £3,600. Given the limited availability of the Hall and the works being within the £2,500 maintenance budget, the appointment of Contractor A at £1,400 had been approved by the Planning Committee under the summer delegated authority.

Following completion, the contractor recommended a further protective coating during 2027/28 to prolong the life of the flooring. Provision for this would be included in the 2027/28 maintenance plan.

Ratified: the expenditure of £1,400 for the Rickards Hall flooring maintenance works; and noted that provision for a further protective coating would be included within the 2027/28 maintenance plan.

The SSP+ would provide a long-term spatial planning framework for Edenbridge, supporting the Council's position through the emerging Local Plan process and providing an evidence base for future planning and infrastructure considerations.

The Town Clerk had confirmed the appointment, with a further update on the project programme and next steps to be reported to Council in October.

Draft Published

vegetation, bonfires and weed management.

Members noted that the existing Environmental Policy Statement would become redundant, as its principles had been incorporated and expanded upon within the new framework. Members,

Members also noted NEDRA's Summer 2026 Water Quality Testing report, which provided an update on its ongoing volunteer monitoring activities across the River Eden catchment.

Members supported initial engagement with NEDRA and Kent Wildlife Trust to explore the initiative and opportunities for partnership working, recognising that any future commitments or resource implications would require separate consideration by Council.

Resolved: to support initial exploratory discussions with NEDRA and Kent Wildlife Trust regarding the Rights of Rivers initiative, and to nominate Cllrs Baker, Aldridge and McArthur as the Council's representatives.

11.3 Great Stone Bridge Trust - proposed change to nominative trustee arrangements

Members considered the proposed changes to the Great Stone Bridge Trust's governance arrangements as part of its transition to a Charitable Incorporated Organisation (CIO).

It was reported that the Trust proposed reducing the Town Council's entitlement from two Nominative Trustees to one, with the Trust retaining a right of veto over the Council's nomination.

Members expressed disappointment at the proposed reduction in Council representation, given the longstanding relationship between the two organisations. Members questioned whether provision could be made for a second representative or deputy to attend Trust meetings when the nominated trustee was unavailable.

Resolved: to consent to the proposed changes to the Great Stone Bridge Trust's governance arrangements, reducing the Council's entitlement from two Nominative Trustees to one, with the Council's nominee to be subject to a right of veto by the Trust, and to authorise the Town Clerk to sign the necessary documentation. Members considered a request from the Eden Valley Museum Trust to increase its annual Service Level Agreement (SLA) grant from £6,500 to £7,500 from the 2027/28 financial year.

Members noted the Museum's ongoing contribution to the local community, its financial position and the increasing challenges in securing external funding towards core running costs. The Council's longstanding support for the Museum, including the provision of Church House under lease, was also acknowledged.

Members supported the request, recognising the importance of maintaining the Museum as a local heritage and community facility.

Resolved: to approve an increase in the Eden Valley Museum Trust's annual SLA grant from £6,500 to £7,500 with effect from the 2027/28 financial year, with the additional £1,000 to be incorporated into the Council's 2027/28 budget.

Members received an update on Local Government Reorganisation (LGR), including the Government's earlier announcement to proceed with four unitary authorities across Kent and Medway, with Edenbridge forming part of the proposed West Kent authority.

It was noted that, on the day of the meeting, the Government had announced a pause to the reorganisation programme. Members acknowledged the uncertainty this created for the affected authorities and noted that further updates would be provided as the position became clearer.

13.1 Community Asset Transfer Programme

Members noted that Sevenoaks District Council had paused its Community Asset Transfer (CAT) programme in light of the proposed Local Government Reorganisation, with resources being redirected towards transition arrangements.

It was confirmed that previously approved asset transfers would continue to progress, while any future opportunities would be subject to further consideration.

14 Councillor vacancies - to formally note the resignation of Cllr Stephen Sumner (North and East Ward) and to consider whether to co-opt to the two current vacancies

Members considered the two current councillor vacancies, one in each Ward, and whether to commence the co-option process. In view of the scheduled Town Council elections in May 2027, Members agreed not to proceed with co-option at this stage.

Noted.

15.2 Sevenoaks Local Plan Regulation 198 Publication - closing date 17 September

Noted.

15.3 Sevenoaks District Council Draft Community Infrastructure Levy charges - closing date 17 September

Members considered Sevenoaks District Council's proposed revised Community Infrastructure Levy (CIL) Charging Schedule, which would remove residential developments of 10 or more dwellings from CIL, with infrastructure contributions instead secured through Section 106 agreements.

Members expressed significant concern regarding the potential loss of CIL income directly available to town and parish councils, particularly given the scale of development proposed for Edenbridge through the emerging Local Plan. It was noted that CIL had enabled the Town Council to support a wide range of local infrastructure and community projects, including improvements to existing facilities and assets which may not otherwise be funded through site-specific Section 106 agreements.

The Town Clerk had attended a meeting with representatives of the four towns within Sevenoaks District, who shared similar concerns. Swanley Town Council had subsequently prepared a draft joint letter for consideration and endorsement by the four councils.

Members supported a co-ordinated approach to ensure that the potential implications for local infrastructure funding and the ability of town and parish councils to respond to community needs were clearly represented. Members,

Resolved: to authorise the Town Clerk, in consultation with Cllrs Baker and Aldridge, to work collaboratively with the other three town councils within Sevenoaks District to prepare and submit a robust response to object to the Draft CIL Charging Schedule consultation, highlighting the importance of retaining locally controlled infrastructure funding and the potential implications of the proposed changes for Edenbridge and its communities.
